 Family *Panicum*
 Genus *Panicum* Species *interruptum*, Willd.
 Locality Varumalai. Pallassana. Palghat
 Date Novemb 1900 Collector W. H. H. H. H. H.

A dried plant specimen of Panicum montanum is mounted on a light-colored, slightly stained paper. The specimen consists of several thin, upright stems with long, narrow, lanceolate leaves. Some leaves are dark brown, while others are lighter, showing signs of drying. The stems are thin and woody, with some branching visible.
